New Products and Features!

Nu-Calgon Tri Pow'r HD 2.5 Gal Pail

Part #: 4371-86

Southern Refrigeration now stocks Nu-Calgon's Tri Pow'r HD in a 2.5 gallon pail. This alkaline cleaner is heavy duty that is very unique when compared to other similar alkaline coil cleaners. This cleaner emulsifies or converts greasy deposits into a fluid or liquid form that can be easily flushed. Other significant features to go along with this cleaner is that it's non-acid, non-toxic, biodegradable and safe to use!

Heatcraft Scroll Condensing Units...Now Available with Copeland or LG Compressor Options!

In order to meet January 2018 EPA SNAP and future DOE regulations, Heatcraft is leading the industry transition from hermetic to scroll technology.

Southern Refrigeration will be stocking Bohn scroll condensing units with integrated LG compressors. These compressors come with a 2 year standard warranty from the date of purchase.

To go along with the Bohn scroll condensing units, Southern Refrigeration will now have the capability to replace a Copeland scroll compressor with a matching LG scroll compressor in the event a compressor goes bad.

SRC will stock LG compressors to satisfy this occurrence when it happens.

Scotsman Training Classes Coming in March!

Southern Refrigeration is hosting 3 Scotsman ice machine training classes during March 20-22. Dinner will be provided as well as promotional giveaways.

There will be a \$25 registration fee per person for attending a class.

Attendees will be invoiced the same day that they register.
