Float Valves by Watts

Now stocking a variety of float valves from Watts. These float valves are heavy duty mechanical valves used for industrial, agricultural, and commercial applications. In addition to controlling a high capacity of water flow, these valves are ideal for use in AC, refrigeration, and irrigation systems.

Multi Zone Ductless by Friedrich

Now stocking multi zone ductless systems by Friedrich. Using the new FastPro design, the entire blower wheel assembly can be removed for easier, faster cleaning and service.

Check out the link below for more information:
